

AUTOMATIC HAND DRYER

High speed

Proandre Hand Dryer reduces 95% of expenses compared to paper. With the cost of one cloth of paper Proandre Hand Dryer can dry 22 people hands.

Proandre Automatic Hand Dryer has high durability and it is easy to clean.

The hand dryer activates when **detecting hands** underneath an **infrared led** and performs a complete drying by warm-air system; it **automatically stops** working when user stops using it or **after 60 seconds** of continuous use.

Presented with **water collection tray** that facilitates the maintenance of hygiene in your bathroom facility and prevent slippery floors, bacteria proliferation on wet sites and mold creation.

Installation: fixed to the wall with screws. Vandal resistant case, strong and durable.

Very efficient in energy use. The impact on the environment is neutralized using Proandre Hand Dryer.
