

OZONE GENERATOR

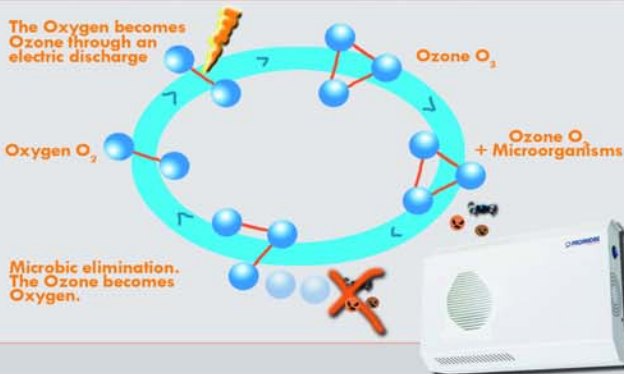

In addition to the deodorizing function, the Ozone is also one of the most powerful disinfectants in the nature, with a much greater power than the chlorine.

Washroom

Proandre Ozone Generator is very useful for industrial or commercial facilities with bad odors problems or pollution risk. It is optimum for growing longer the perishable food. Also it is the best system for the treatment in smoking areas. It works creating 'micro storms' inside that will release ozone particles to the air helping this way to minimize the risks of biological and chemical contamination, infections or allergies.

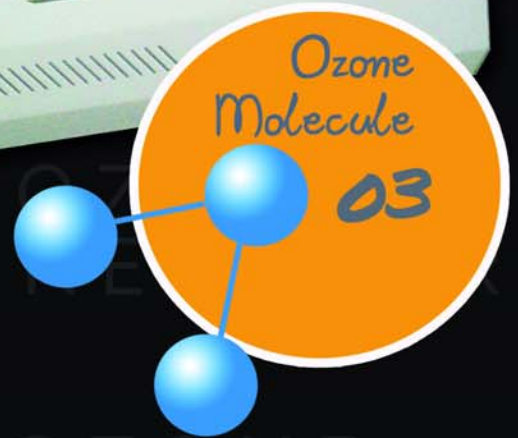

OZONE GENERATION PROCESS

The Ozone is a well known desifectant. 100% risk free usage. Easy controllable. Keep areas clean and breathable.

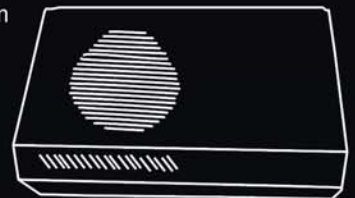

OZONE GENERATOR

The Ozone destroys by oxidation the bacteria, virus and most germs, making the polluted spaces oxygenated, clean and unpolluted.

Outer Size: 220mm x 370 mm x 90 mm
 Voltage: 230V – 50/60Hz
 Power: 25W
 Available color: White.
 Material: Metallic C/ Epoxy Resin.
